Absent:

1) Welcome – Karin

2) School Land Trust Plan Report

- a) Meeting schedule, contact information of SCC board, etc are on schools website
- b) Can't do the plan or final report yet, the State doesn't have the form up.
- c) Text, email, front office computer available to parents who don't have internet access at home.

3) Items from the Public

- a) Some parents are very disappointed that we didn't purchase Rosetta Stone again. They were told that because of price increases and small amount of usage the SCC decided that it wasn't worth it. Also they were told of the other major programs that were being funded instead with those monies.
- b) Out of Area parents – is there a way to put those parents in contact with other parents to see if they want to carpool. Mr. Bowman will get this put on the website to give information on a form.
- c) Lots of people are excited to do the “fundraiser insurance” campaign for the school instead of the fundraisers being sent home.
- d) Security System – some concern expressed that it will make the school feel less friendly. It is a camera and intercom system like Riverview has. Probably won't be installed for a couple of months. Mostly will help with custody type issues.
- e) Are teacher team presentations scheduled yet? Yes Monday March 9th
