*"Learning At High Levels For All Students"*

Volume 1, Issue 1

September 2013

Our Mission:  
"Learning at High Levels for All Students."

This means we believe that all students can learn. And, it is our stewardship to ensure that we are providing the best educational environment and experiences to help each child learn and grow to reach greater heights.

How are we going to ensure all students learn?

Our Vision:  
"Effective Collaboration."  
Together as individual grade level teams and as a whole faculty, we collaborate to identify what kids need to succeed. We analyze data to know exactly how we are doing every standard and every child. We seek out best practices to have the right tools to ignite the spirit of discovery and a love for life long learning.

- 9/9 School Pictures
- 9/20 School Carnival  
4:30 - 7:30

- 9/26 Community Council
- 9/27 Vision Screening

## Principal's Message

Parents and Students,

Welcome back to another great year at Lehi Elementary. We are very excited about what this new year will bring. We have worked hard to get ready and we've begun the year strong. You will notice

that we have done some sprucing up in the school and we are appreciative of all those who helped out. A special thanks to Mrs. Heidi Needles, one of our wonderful parents, for the beautiful mural she painted in our main hall depicting historical buildings in Lehi. My purpose for asking Mrs. Needles to paint this mural is to tie our past with our future. Lehi Elementary has a rich legacy of educating young minds and we are carrying on that torch today.

That's not all, we have more to celebrate. We have been able to establish an educational partnership with IM Flash Technologies to expand our Science curriculum. Hamilton Shattuck, Academic Relations Manager and Kevin Driggs, Work Force Planning Manager of IM Flash came to the school and gave us a check for \$1,000 to go toward the creation of a Science Lab that will be used by all grades. Coupled with the revenues from our Fall Carnival, we will create the IM Flash Lab.

Lastly, we had a very successful first year with our "Reading Rocks" Summer program. As we have begun DRA testing, we have found that those students who read everyday increased in their DRA scores. Some by two or three levels. That proves the point that if you have your kids read everyday, they will do better academically.

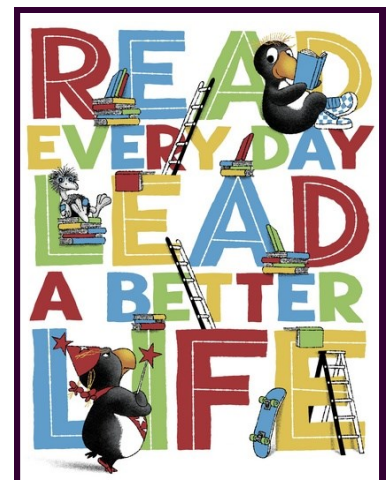

## Welcome New Faculty Members

- Mrs. Denning—4th Grade
- Mrs. Gottfredson—6th Grade
- Mrs: Combs—SPED
- Mr. Schultz—Adaptive PE
- Mrs: Thomas—Secretary
