

What is School Community Council?

The purpose of the School Community Council (SCC) is to build consistent and effective communications among parents, employees, and administrators and to allow parents an opportunity to be actively involved with the school in the education of their children. The SCC is responsible to develop a School Improvement Plan and a School Land Trust Plan. This past year, the council appropriated \$62,000 to implement the school improvement plan and facilitate student achievement. Please contact any member of the council if you have questions or concerns about the School Improvement Plan or any other issue at Mount Mahogany.
