

Distance Learning Day Plan

Dear North Point Parents,

When there has been inclement weather in the past, Alpine School District has made the call to hold a snow day. This was a day off of school for students. Snow days needed to be made up at some future date within the school year. The make up day was typically done during our spring break. With online learning options available to us now, we have opted to move to an online format if the weather does not permit students and teachers to travel to school safely. Teachers will send out some online assignments. Each teacher will reach out to you with more details concerning those assignments if this is the case. Communication for the distance online learning day will be announced by 6am through the following sources as well as television and radio stations:
