SCC Meeting held on Tuesday November 15, 2011

In Attendance:	Parents:	Karina Ruvalcaba Mindy Harmon Adria Howse Angela Seegmiller
	Faculty:	Rachelle Bolingbroke Sandi West Nanette Jensen

Review of minutes from last month's meeting.

Angela approved them and Mindy Harmon gave a second to that.

....

We need a co-chair for our committee. . . anyone?.. anyone? Mindy Harmon stepped up to that wonderful responsibility.

.....

Our Stakeholders report is due next week.

Cathy Ambrose put the report together for us. We want to get feedback on the organization and presentation for our report. We are looking at making it a half sheet instead of our traditional tri-fold.

We want to emphasize our parent involvement with our awesome PTA and our FLEX activities. We have AMAZING parent involvement.

Do we want/need to compare our school with the schools around us? Or is that pitting us against others? Maybe we can compare our school to ourselves. Compare numbers from past years and today. BUT - When you see a school with no numbers, you wonder how well they really are doing.

Nanette said maybe instead of naming the schools we are comparing ourselves to, we could just list it as "other Orem schools". If people want more information badly enough, they will find it.

Maybe have an online resource for parents who are looking for numbers and scores from local schools.

We need to improve on our Low Income and Hispanic Population. This is a hard reality for us. Maybe we can show a graph which includes the scores for the low income and Hispanic group compared to the rest of the student's scores. That would make those statistics easier to read and understand.

We will finalize this report at our next meeting.

.....

PVA (Polytopic Vector Analysis)

This is a statistical approach to find similar schools in our state.

We are looking great in reference to these other schools.

Should we use these graphs in our stakeholders report instead of comparing to the other Orem schools?

Which graphs should we use? Hmm, hard decision.

.....

Homework: Think, look online, ask... what can we do to help our Low Income and Hispanic population.

Rachelle asked if she is supposed to move ahead with the Elmo projectors.

We set aside the money. We need to go ahead with it. We voted to approve it but have not done it yet. We need to make sure the teachers are going to use it. Have the teachers write a proposal to Rachelle including what they will do with their projectors.

Our next meeting is scheduled for December 13<sup>th</sup>, 2011
