Discussion of School Growth and Population

llene explained the method used by the school district to decide how many teachers the school can hire. She showed the breakdown of the numbers and population. Many parents are worried about the large numbers of students in the 5th grade classrooms. Ilene showed how this situation will decided by the district based on the school wide numbers, should significant changes occur. The chart below shows the numbers she discussed.

Amendments of last year's plan for 2016-2017

Budget ideas discussed:

- 1. We will be using "Lexia" instead of "iReady." Because we got a grant from the state to use "Lexia."
- 2. Digital Citizenship.
- 3. Some money will be used for computer cart repairs and additional chromebooks.
- 4. Aides: Aides will be used in crowded classrooms Aides will be used in many classes to assist with double dose Aides will be used for Flex Time

5. Discussion about "Houses" Plan

We talked about the plan to use the idea of "Houses" at our school. One of the ways that llene feels that it will work best is if all teachers are enthusiastic about it. She suggested that a use of our allocation would be to send teachers to a training at the Ron Clark Academy in Atlanta.

After the discussion, it was decided to go ahead and begin the process of sending teachers to this training. It will take a few years to send all of the teachers to this training

In summary, our planned expenditures for 2016-2017
