

How the Rainbow got It's Colors

Many, many moons ago the common Rainbow didn't have any colors (omhosh) but, one day a man by the name of Popoosh Itimball was strolling through the forest of Blah. It was a very rainy day, Popoosh looked up and saw ... A Cloud!!! But next he saw a rainbow but of course it did not have any colors, instead it had a blandish grey color. Popoosh was a smart fellow and he had a great idea. His idea was to ... Eat a Sandwich!!! But after that he had another idea, and that idea was to get some buckets of paint and throw them into the sky... to the rainbow ... for no apparent reason... and so he got some buckets of paint. He went to the forest of Blah and did what he said he would do. And as he was doing this the biggest anti colorization mob turned the corner and there was Popoosh throwing buckets of paint into the sky.
