Windsor Elementary

*2011
Stakeholder Report*

What is a Title 1 School?

Title 1 is a federal education program that aids and helps higher poverty schools by providing additional federal funds to aid in meeting the needs of the students. Windsor Elementary is one of the Title 1 Schools in Alpine School District. The Title 1 funds received at Windsor Elementary go towards reducing the teacher/student ratio and helping to improve and provide assistance to help with learning in literacy and math.

Professional Learning Communities:

Every Monday, teachers at Windsor Elementary meet together to discuss fundamental areas of student learning, ways to improve learning, and achievement of students. The Professional Learning Communities at Windsor Elementary focus on four essential questions:

- | |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <ol style="list-style-type: none">1- What do we expect students to learn?2- How will we know what students have learned?3- How will we respond to students who aren't learning?4- How will we respond to students who already know the material? |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

These four questions are the guide for us as we work to improve our instruction and student learning.
