

Cedar Ridge Elementary School Track Change Requests

For those families who are interested in requesting a certain track for the next school year, forms will be accepted in the office beginning Friday, April 20th, 2012 at 7:30 a.m.

The following people need to make a track change request:

- * Parents of incoming kindergarten students whose siblings don't attend here
- * Parents of incoming kindergarten students who have a preference for a morning or afternoon session
- * Parents with students entering the Accelerated Learning Lab (A.L.L. Program)
- * Parents who desire a change from their child's current track

All track change requests will be considered based on availability and on a first-come, first-served basis.

New kindergarten students who have siblings enrolled at Cedar Ridge Elementary will be placed on the same track as their siblings. If your only child here will be a kindergartner next year you will want to come and request a track. All parents of incoming kindergarten students should request a start time (morning or afternoon).

****Please note, to keep our small group literacy times effective for next year, we will not honor requests that would result in one track in any grade level becoming overloaded.**

Requests for a track where there are no available spaces open will be placed on a waiting list.

-Please note: Currently our Fourth Grade is overloaded with Track 1 kids. Track change requests for next year's 5th graders will only be considered if you are requesting switching from Track 1 to Track 2.
