RISE Individual Student Reports

We are required to give parents and students their RISE Individual Score Reports (ISRs) and an explanation of scores before the school year ends. RISE scores cannot be loaded into Skyward in a timely fashion based on the format used by RISE, so this is why schools need to provide students with a hard copy to take home. This procedure is necessary based on changes in State Statute that require scores to be provided to parents within 2 weeks of testing concluding

We need your help with the following:

1. Send a copy of the ISRs home with each student. A recommendation would be to have teachers print it and send it home with the student. The school should keep the digital file handy. ISRs are already available for students who have completed testing. Testing Coordinators, see the [RISE reporting system guide](#) p. 154-168 on how to print these and please help teachers as needed.
2. Post in a newsletter or on your website how scores will be distributed and the following links for all patrons and students.
 - [How do I interpret Summative Writing Scores?](#) (English)
